*The City of Ferris Code of Ordinances, in addition to the NEC, will be applied to all construction work performed within city limits.*

- 1. Debris containment will be owned by the contractor, or the service must be arranged with Waste Management by City Contract. If you require a roll-off container, please let the building department know.*
- 2. Debris containers may not be placed on public streets or sidewalks without the written approval of the Superintendent of Public Works and the Chief of Police. In no event may it block the passage of vehicles or cause a situation that could endanger lives or property.*
- 3. Debris from the project must be contained and not left on the ground per city ordinance. Should this policy not be adhered to - the police will issue a citation if observed and without warning.*
- 4. Debris containers must be removed from the job site prior to final inspection and no later than 24 hours after the project has been completed.*
- 5. All city ordinances, adopted building codes, and OSHA safety regulations must be followed. Some violations will generate a citation issued by the Police Department.*
- 6. All required inspections must be complete to avoid post completion demolition and to inspect the work for code compliance. Inspection requests must be in writing and the Inspection Request Form can be found on our website.*

**By signing below, I hereby certify that I have read and examined this application and know the same to be true and correct. All provisions of laws and ordinances governing this type of work will be complied with whether specified herein or not. The granting of a permit does not presume to give authority to violate or cancel the provisions of any state or local law regulating construction or the performance of construction. The issuance of any permit neither exempts nor modifies any covenants, deed restrictions, city ordinances and/or state or federal laws, whether herein specified or not.**
